

My whole family listens to Airl Radio and we love it. It is all good music, no profanity which is EVERYWHERE else these days and to tell you the truth, I am SICK of all the garbage that is out there on TV and the radio. Howard STern is the worst thing I have ever heard. Airl reaches people, believers and non believers, with a message that there is hope and there are others who feel the way we do. They have a positive message that inspires people, not a negative hate or sexual message that everybody hears day in and day out. PLEASE, let us keep our station and let them keep sending out the good news.
